## What makes a 5 gallon water cooler commercial grade?

Patented leak guard keeps leaky bottles from spilling water on floor

Splash guard ensures easy placement and removal of water bottle.

Super cold and hot output (38 - 58 degrees cold and 185 degrees)

Fast fill rate (16oz in under 8 seconds!) and deep fill area for large sport bottles and containers

Heavy-duty hardware and encased metal external construction makes units rugged and durable

Hot tank on off switch

Adjustable cold water thermostat – factory set for maximum efficiency

Refrigerant Type: R134a

Energy Star® rated for exceptional energy efficiency

Fits a standard 3 and 5 gallon water bottle

High-volume, 304 electro polished stainless steel hot and cold tanks with internal heating coils and copper refrigerant lines ensure no off taste to water

Push style faucets offer comfort and ease with patented child safety hot water protection

Removable dishwasher-safe drip tray

HDPE outer plastic shell does not rust or corrode (available on model 3H)

Fits any standard 110 volt socket

LG high-efficiency compressor with the lowest cycle rate available ensures a long lifespan. Convection cooling with internally spring-mounted, hermetically sealed compressor with automatic overload protector

Warranty: 1 years on parts and 3 years on compressor
